ATTN OF:

SUBJECT: Updated Jurisdiction designation of Public Buildings - Region 9
(Revised memo April 26, 1968)

FEB 12 1973

All Buildings Managers and Central Protective Force Captains
RENO: P.B.S. FIELD OFFICE

This is to provide an updated list of Buildings' Jurisdiction - Region 9, and to explain the codes listed thereon.

BACKGROUND: Article I, Section 8, Clause 17, of the United States Constitution provides that the Congress shall have power -

To exercise exclusive Legislation in all Cases Whatsoever, over such District (not exceeding ten miles square) as may, by Cession of particular States, and the Acceptance of Congress, become the Seat of the Government of the United States, and to exercise like Authority over all Places purchased by the Consent of the Legislature of the State in which the Same shall be, for the Erection of Forts, Magazines, Arsenals, dock-yards, and other needful Buildings: (underscoring added.)

The underscored part of the above has resulted in the Federal Government acquiring "like Authority" to numerous areas within the geographical confines of the States and with respect to the residents of such areas. These areas, sometimes called "enclaves", are in effect - Federal islands surrounded by State territory. To the extent that legislative authority has been surrendered to, and accepted by, the Federal Government, the States are deprived of the authority of a State and cannot, with respect to such Federal enclaves or to their inhabitants, exercise usual State functions. In addition to legislating concerning criminal activity, such functions include, but are not limited to, exercising legislative authority with respect to taxation, marriage, divorce, annulment, adoption, commitment of the mentally incompetent, descent and distribution of property, and civil or political rights.

DEFINITION OF CODES LISTED:

1. EXCLUSIVE LEGISLATIVE JURISDICTION. This term is applied when the Federal Government possesses by whichever method acquired, all of the authority of the State, and in which the State concerned has not reserved to itself the right to exercise any of the authority concurrently with the United States except the right to serve civil or criminal process in the area for activities which occurred outside the area.

2. CONCURRENT LEGISLATIVE JURISDICTION. This term is applied in those instances wherein in granting to the United States authority which

Keep Freedom in Your Future With U.S. Savings Bonds

U. S. ATTORNEY, Reno, Nev.

would otherwise amount to exclusive legislative jurisdiction over an area, the State concerned has reserved to itself the right to exercise, concurrently with the United States, all of the same authority.

3. PARTIAL LEGISLATIVE JURISDICTION. This term is applied in those instances wherein the Federal Government has been granted for exercise by it over an area in a State certain of the State's authority, but where the State concerned has reserved to itself the right to exercise, by itself or concurrently with the United States, other authority constituting more than merely the right to serve civil or criminal process in the area (e.g., the right to tax private property).

4. PROPRIETORIAL INTEREST ONLY. This term is applied to those instances wherein the Federal Government has acquired some right or title to an area in a State, but has not obtained any measure of the State's authority over the area. In applying this definition, recognition should be given to the fact that the United States, by virtue of its functions and authority under various provisions of the Constitution, has many powers and immunities not possessed by ordinary landholders with respect to areas in which it acquires an interest, and of the further fact that all its properties and functions are held or performed in a governmental rather than a proprietary capacity.

EXPLANATION FOR PURPOSE OF CRIMINAL JURISDICTION:

Exclusive jurisdiction (code 1) means that the United States has sole authority over the site. An arrest made at the site by a state or local officer for violation of a state statute would be invalid, and the state or local courts would be without authority to try persons so arrested.

Concurrent jurisdiction (code 2) means that the United States and the State within which the site is located each possess authority and either may exercise jurisdiction. Availability of facilities and resources, and the circumstances of each case, should be determinative as to whether criminal laws should be enforced by the Federal Government or by state or local authorities.

Partial jurisdiction (code 3) usually is concerned with areas of legislative function such as taxation, divorce, etc. In doubtful cases, clarification should be sought from Regional Counsel as to whether the United States has criminal jurisdiction.

Proprietary Interest Only (code 4) means that the United States has very little authority over the site more than a private person would have over his own property. The State in such instances would have sole criminal jurisdiction.
